### » SKILLS

#### Proficient

JavaScript  
Node  
Express  
Sequelize  
MongoDB  
React  
Redux  
Git/Github  
PostgresSQL  
Mongoose  
CSS  
HTML

#### Knowledgeable

Passport.JS  
Webpack  
Socket.io

#### Familiar

TDD (Mocha,  
Chai, Jasmine)  
Travis CI  
Heroku

### » PROJECTS

#### Deceptioncons

([github.com/decept1cons/Graceshopper](https://github.com/decept1cons/Graceshopper)) February/2019

- eCommerce website offering automobiles with PLP, shopping cart, and google login
- Managed weekly git pull parties and resolved merge conflicts to ensure smooth progression
- Built with Node.js, Express, PostgreSQL, Sequelize, React, Redux

#### EZSplit ([github.com/EZSplit](https://github.com/EZSplit))

March/2019

- Full stack web application with the goal of simplifying the consumer dining experience by allowing convenient receipt-splitting
- Users can scan receipts and edit each item on a customizable table with their friends in real-time
- The application boasts a sleek user landing page and user-friendly prompts for simple use
- Collaborated with a team of 4 in an agile work environment and utilized vertical slicing approach to reduce merge conflicts
- Built with Node.js, Express, PostgreSQL, MongoDB, Sequelize, React, Redux

### » EMPLOYMENT

#### Citigroup Global Markets Inc. *Sr. Associate, Private Banking/Advisory*

New York, NY  
January/2018 to  
October/2018

- Managed inquiries for a portfolio of 50 high net worth clients with AUM of 200 million dollars
- Maintained a working relationship with clients, sales, implementations, operations, and product teams to ensure procedures comply with all bank and trading policies including federal regulations (Dodd Frank)
- Collaborated with trade settlement teams, trade desks, risk management, offshore account opening, and technical support teams in service of client management

#### *Associate, Investment Services/Sales Support*

June/2015 to  
January/2018

- Generated and reviewed performance reports for salespersons entailing overall account performances, product performances, and portfolio performance versus specified benchmarks
- Provided trade and product support to regional salespersons specifically in advisory products
- Advised on topics such as asset movements, account activity (including margin and cost basis), retirement account policies including retirement products, and account opening
